

What do Dental and Vision Plans Cover?

Dental and Vision Insurance can be purchased individually or together and offer coverage for treatment and procedures related to your oral and visual health.

Dental Insurance usually covers:

- Preventive and diagnostic care
 - Cleanings
 - Exams
 - X-Rays
- Basic Dental Care
 - Fillings
 - Extractions
- Major Dental Care
 - Root Canals
 - Crowns
 - Bridges

Vision care insurance usually covers a percentage of the following basic services:

- Yearly eye examination
- Eyeglass lenses
- Eyeglass frames
- Contact lenses
- LASIK and PRK vision correction procedures at a discounted rate
